WEB DEVELOPER

PROFILE

I am currently looking for a challenging job where I can further hone my abilities and knowledge in Web development. I'm excited to offer my passion for developing original ideas, solid technical proficiency, and commitment to producing top-notch outcomes to help the company I join succeed.

EXPERIENCE

-  **Waffleandcones.com** — WordPress & WooCommerce
Designed and developed in WordPress & WooCommerce. A dessert shop in Whitley Bay, United Kingdom.
-  **Everydayproducthub.com** — WordPress & WooCommerce
Created in WooCommerce, a thriving online store specializing in linens, chair covers, sashes, napkins, and charger plates for events.
-  **Word Utils Tool** — React Js
A utility tool developed in React js to perform basic operations like Counting words and transforming them.
-  **Unsplash Clone** — React Js & Rest API
Developed a React.js application replicating Unsplash, integrating with a REST API. Demonstrated proficiency in front-end development, UI/UX design, and API integration.
-  **ToDoList App** — React Js
A utility tool developed in React js. It is best to organize daily base tasks and thoughts.
-  **Ebook Apps** — Java
I have created bunch of e-book apps for my clients and for my self which are available on PlayStore. (50K+ Downloads on playstore.)

I have done multiple projects for my clients worldwide regarding E-Commerce & E-book app development. User Friendly & Fully Responsive.
